World Changing Event?
Clif and Dick Allgire discuss a dramatic world-changing event that they both seem to be picking up and wonder if the knowledge of it might prevent it.

He explicitly mentioned what was about to happen now with the UFOs current wave in the last 12 minutes of this podcast, several months in advance, with an extreme level of detail. For those skeptics looking out for a proof, well there it is.

Valuable - buy bitcoin and ethereum, even if just to survive, because in a Zero-Point Energy world PoW may actually be not that safe, but PoS would keep being pristine

Main worries are in quantum-computing enabled algorithms fractures... idk tbh

Three Rejected Offers, Then ZPT
Amid failure of the US Dollar and its banking system, Trumpsters will give the populace three offers which will be soundly rejected. We will ultimately arrive at a ZPT-based economy.

Clif 8

Some old commentary which is not that valuable anymore, but lets you see the route of crypto and the early predictions of USA trying to back the dollar up with BTC and failing to do so

ZPT will be the ultimate dollar back-up in 2025 apparently

59:30 he talks about how in "~april/may of 2020" USA would get in some severe problems with the shakiness of the US Dollar

"Thousands of Indictments" Was Always Stupid
The "thousands of indictments" meme doesn't stand up, consciousness is not in the brain, and the breakdown of the federal glue between the states leads to stronger cooperation between them.

1-Clif's perspective on AI doom seems to be "that's not an issue", which is quite interesting, as it directly clashes with Eliezer Yudkowsky's POV and other safetyists. Probable one of the few spots where I can clearly

Date is indeed April 16 2020, even if they take the YT video down at some point

Why this, 4 years later? Covid is done!

This video shows how much ahead he was - watch it yourself. This calibrates him as a highly intelligent efficient researcher

Bioweapon Requires New Treatment Approach
Now that the disease has been proven to be a bioweapon, all the traditional protocols are out the window. But the Chinese Navy showed us the answer months ago.

it's mentioned there.

ELohim is the god that jews (and maybe muslims?) praise. They are space aliens, not the actual god, who is much broader than a race, and they're mostly very bad, as mentioned in a famous JC videohttps://clifhigh.substack.com/p/crack-open-the-elohim-egg?utm_source=publication-search

Taking Clifs 12 and 13 + a post of mine about saturn, black cubes and the jewish religion, we infer the following possible associations

not sure about this: Moon~Saturn~ELohims~Jews~CCP + WEF + Top Democrats...

let's hope these UFOs are good...https://rumble.com/v3rq1zs--sci-fi-world-lunacy-with-clif-high-and-jean-claudebeyondmystic.html
the claimed post

While Clif 13 is extremely interesting, most of the assertions in there await corroboration. I would highlight just 2 very unlikely facts:

A) Earth-Moon-Sun aligned --> eclipses happen
B) always the same side of the moon faces Earth

From my understanding, A) and B) happening on the only moon we have is extremely unlikely, and The Why Files also commented very well on the "Hollow Moon" theory, look it up.

Speculation 👇:

Maybe the reason why the theory "Reptlians are real and live inside a hollow Earth!"

exists in the first place is because the competent intelligence services wanted to discredit and control some critical conspiracy theories out there, in this case "The Moon is hollow and aliens live inside that spacecraft", and the best way whenever this gained traction would be

to point out to a carefully crafted easily debunkable sister conspiracy theory preliminarily put forward by themselves, so that this another one also looses credibility.

e.g. the FlatEarth psyop, despite being one of the most widespread consp theories, is pure bs and propaganda.

This was a really good show as well, the most viewed one on the JC Rumble channel, and I think it is well deserved. Some highlighted comments out of it in this thread:

1 - Get fit, you may need to physically fight for your life in 2025, especially if you're in Europe/USA and you

also take into account this nefarious famous old 2025 Deagle report, only available now on the internet wayback machine https://web.archive.org/web/20200629140844/http://www.deagel.com/country/forecast.aspx?pag=3

Epstein's? +
Hunter's Laptop? +
DOGE cleaning the shit up? +

BRICS coordinated attack against the dollar? +
Hotez's promised bird flu faked emergency? +
What is Bill Gates saying about AI real-time censorship of "misinformation"? +
What is happening in UK, free speech, jails

and the bitch of Keith Starmer? +
O3 is out, is it AGI, WTF? +
What the hell are Steven Greer and Clif High saying about Zero Point Energy?????

Boss,
I am tired.

Can we just jail the baddies up, what do I have to do, for God's sake?

3 - 41:30 - New Physics unveiled + alien stuff and...

...by mid Feb 2025 we seem to expect a financial problem. Mid Jan also brings an issue. By June 2025 USA will have a respit... But other RVers anticipate chaos in Europe by 2025 in multiple forms... So does Deagle report

And Europe is diligently heading towards full blown-out war with Russia. Maybe alone, without daddy USA. An EMP continues to be the expected dramatic event in Europe 2025, but something else could fuck it up - the thing is they'll fuck Europe up somehow in 2025.

4 - 51:35 - Financials

Again, in regards to the financials, get Silver + Gold + BTC + ETH...

Current silver gold ratio seems to be 91:1, we seem to be heading towards 1:1 (not necessarily 1:1), so silver could be the investment of the decade...

"banks don't get funded" soon™

"real estate massive market crash" +
"dollar's death" +

you'll need to become self-sufficient, as much as possible +

staff & professors in academia go away once the dollar is dead, so do plenty of other people dependent on a fake money income stream, the fiat currency +

why? because now that the currency is a hard one again, if your job is bs, and the govt. is in shambles, who is going to pay for your DEI initiative at the parrots park in the phantom zoo subsidized by the state? No One. GTFO.

ZPT will be rolled out in order to support the

previously useless people that don't have subsidies anymore and need something, something...

Trump will rather chose discontinuity than the traditional way, because the pain it will cause would come up anyway.

Massive LSD-like experience?

+... Why are the aliens showing up now

in Dec 2024?

Because they can probably peep into the future, just like human Remote Viewers somewhat do, but better, and they know what is coming in 2025 and beyond probably...

...so their showing up as predicted is further corroboration of things being about to go to the

milkshake maker.

Most normies are quite stupid. You still have an edge. You'll soon not have any edge, if you chose to not care at all. Especially in USA/Europe.

Health is Wealth. Now that is more true than ever. But anyways - panic to own BTC/Silver/Gold will be a real thing.

01:44:00 this actually is already happening, as some of closest to Trudeau Canada's govt. have already resigned...

Trudeau going away + banks crumbling is pending
